

Clinical or Registered Psychologist

Clinical Leader roles

- **Hamilton Based**
- **Relocation incentive available**
- **Minimum two year contract**

Youth Horizons is a New Zealand success story that has operated for the past twelve years. It is the only specialist non-government provider of its type – creating its own evidence-based clinical therapeutic programmes, as well as adapting the top performing international evidence-based models with Maori for New Zealand.

We are looking for two Clinical Leaders for Hamilton, one will provide clinical leadership, supervision and guidance across the Waikato and Bay of Plenty services (Residential, Functional Family Therapy, and Fostercare), and the other who will take up the role of Clinical Leader for Te Hurihanga, a highly successful youth offender programme. To date no graduate from Te Hurihanga is known to have reoffended.

You will be a clinical or registered psychologist with supervision experience gained within a multi-disciplinary framework. We are looking for people who are interested in applying evidence-based psychosocial models with families and young people across a range of cultures. An in depth understanding of relevant legislation will be advantageous.

These well-remunerated roles are exceptional opportunities to work as part of a supportive and committed values-based organisation that delivers within a bicultural kaupapa. You will be part of an active well-credentialed national clinical team.

To apply for this role please visit our Hot Jobs at www.h2r.co.nz and refer to reference number 13169. For further information please call Lynda Goston on 09 368 7300. All applications will be acknowledged by email.
